

Candidate Manifesto

Hi all,

My name is Sam Chapman and I am a first year undergraduate in the Engineering faculty. I am standing to be elected as the student representative of the school of technology because I would like to ensure that the views of all students from all faculties and years are represented. As a fresher especially, I believe I can have an impartial view to the matters of the school and as a result improve the compatibility of the school with you – the student body.

As your representative on the council of the school of technology I would aim to ensure that:

1. Anyone can make their voice heard and express their opinion on the running of the school, regardless of faculty, year or any other factor
2. The student body (you!) are kept informed of the decisions made by the council
3. Decisions made by the council are to the benefit of all undergraduates

In order to deliver upon these aims I will use my previous experience as a senior prefect at 6th form college and a member of the school council of my secondary school. As well as this I will endeavour to give you opportunities to inform me of what I can do to improve your experience – because you know best what you want to change.

I would be honoured to represent you during the coming year and to be given the opportunity to make a positive impact on your university experience.

A handwritten signature in black ink that reads "S. Chapman". The signature is written in a cursive, flowing style.

Sam Chapman - (sc993)
